

Idaho General Fund Revenue

History and Projections

The following pages provide descriptions of the sources of General Fund revenue, historical rate and distribution formula information, historical revenue collection and distribution information, and a brief explanation of the basis of the forecast for each source of revenue that contributes to the General Fund.

Three primary revenue categories (individual income tax, corporate income tax, and sales tax) presently account for almost 94% of General Fund revenue. These sources of revenue are forecast using a combination of econometric methods and judgment. The econometric method is multiple regression, using variables contained in the Idaho Economic Model (IEM). Exogenous forecast data are obtained from the January 1998 *Idaho Economic Forecast*. Both are products of the Division of Financial Management. The judgmental factors considered include the effects of rate changes, other law changes, judicial decisions, and knowledge not reflected in the econometric analysis.

Product taxes and miscellaneous revenue sources are forecast using collections history, trend analysis, law changes, receipts-to-date, and a broad array of contacts with individuals responsible for or otherwise involved with the collection of each revenue category. The largest miscellaneous revenue category, Insurance Premium Tax, is forecast in cooperation with the staff of the Department of Insurance, using simulation models to account for relevant variables and parameters that affect the cash flow into the General Fund.

INDIVIDUAL INCOME TAX

Description: (Title 63, Chapter 30, *Idaho Code*)

Collections from the individual income tax are based on a graduated scale of tax rates that are applied to brackets of taxable income. Current and past individual income tax rate brackets are detailed in the following table.

1. Amounts shown are for single and married filing separate returns.

For all other filing status returns double the income amounts at the top of the columns.

2. Rates shown include 7.5% surcharge on all brackets. Effective in 1955 and 1956.

3. Rates shown include 10% surcharge on brackets greater than \$2000. Effective in 1957 and 1958.

State law pertaining to the Idaho income tax base conforms to most of the provisions enacted in the federal Internal Revenue Code (IRC). Notable exceptions include: a) retention of the state investment tax credit, including its tie-in to the federal definition of eligible property, and b) enactment of a limited capital gains exclusion at the state level.

Most individual income tax collections occur through the monthly withholding process. The remainder is collected through filing collections, which consist of payments made with tax returns and payments associated with audit recoveries. Since the enactment of Idaho's income tax in 1931, all net tax liability, interest, and penalties have been distributed to the General Fund. (An amount equal to 20% of the individual income taxes collected by the State Tax Commission and deposited with the State Treasurer is required by statute to be deposited in the State Income Tax Refund Fund. Any balance exceeding \$400,000 in the State Income Tax Refund Fund at the end of the year is transferred to the General Fund on June 30.) A separate filing tax of \$10 per income tax return has been assessed since 1959. Proceeds of the filing tax went to the General Fund until 1961, when their distribution was changed to the Permanent Building Fund. The income tax return form includes a variety of other "checkoffs" that can be used by the taxpayer to donate various amounts (usually from refunds) to special funds such as nongame wildlife, drug enforcement, etc.

Basis of Projection:

The projections of General Fund revenue from the individual income tax for FY 1998 and FY 1999 are based on a combination of econometric analysis and judgment.

The econometric analysis begins with the Idaho Economic Model (IEM), an economic base model of Idaho's economy that is used to derive employment by industry and by income type. Idaho income data is then used to correlate historical net withholding collections (gross withholding collections less refunds) to Idaho wage and salary payments. Filing collections are estimated using proprietors' income as the primary explanatory variable.

The econometric-based forecast of net withholding collections and filing collections are then adjusted to reflect: a) new features of the tax law that are expected to impact future collections and accruals, and b) effects of other factors that are expected to have impacts not reflected in the econometric analysis.

The forecast that follows assumes no further change in current Idaho income tax law, a standard practice of this Division's revenue analysis.

CORPORATE INCOME TAX

Description: (Title 63, Chapter 30, *Idaho Code*)

Collections from the corporate income tax are currently based on a flat rate of 8.0% applied to taxable income. For a listing of earlier rates refer to the following table. Beginning with tax year 1987, Idaho conformed to the changes made by the Tax Reform Act of 1986, except for the federal investment tax credit repeal. Idaho continues to allow a 3% credit that is tied to the federal definition of eligible property. Also, since September 1987, Idaho has been requiring that corporations file quarterly payments of estimated taxes. This provision is based upon federal rules and was phased in over a two-year period.

1. Same tax rate as 1954 but with the inclusion of a 15% reduction (negative surcharge).

Since its enactment in 1931, all net tax liability, interest, and penalties associated with the corporate income tax have been distributed to the General Fund. (An amount equal to 20% of the corporate income taxes collected by the State Tax Commission and deposited with the State Treasurer is required by statute to be deposited in the State Income Tax Refund Fund. Any balance exceeding \$400,000 in the State Income Tax Refund Fund at the end of the year is transferred to the General Fund on June 30.) An additional filing tax of \$10 per tax return has been assessed since 1959. Proceeds of the filing tax went to the General Fund until 1961, when their distribution was changed to the Permanent Building Fund.

Basis of Projection:

Projections of the General Fund revenue from the corporate income tax are based on a combination of econometric analysis, a simulation model of the cash-flow process under quarterly payments, and judgment. Historical corporate income tax collections are correlated with income and financial concepts found in the IEM and DRI's *Review of the U.S. Economy*.

The revenue collected in FY 1991 declined as a consequence of declines in one-time cash flow from quarterly payments. Quarterly payments have also accelerated the response time between changes in profit conditions and corporate income tax cash flow. When combined with multi-state apportionment, this yields an accelerated link between national economic conditions and Idaho corporate income tax receipts. The sharp drop in corporate income tax collections in FY 1997 is the result of the semiconductor price collapse that struck the DRAM industry in 1996.

SALES TAX

Description: (Title 63, Chapter 36, *Idaho Code*)

Sales tax collections are based on a flat rate of 5% applied to the sales price or value of tangible personal property and services that are subject to sales and use taxation. The rate and distribution history is shown on the following table.

1. Amount equal to 1-mill of all assessed property values distributed to Teachers Retirement System;
\$1,000,000 lump sum (one-time) distribution to Tax Commission.
2. Amount equal to the sum required to be certified by the state controller distributed to the Social Security Trust Fund.
3. Amount equal to the sum required to be certified by the Idaho housing agency.
4. \$1.00 per registration fee on vehicle registration transfers that do not involve sales tax.
5. Amount certified by the Tax Commission as necessary to fund the Circuit Breaker.
6. For the period March 1983 through June 1984 this percentage was applied only to the 3% "base" sales tax rate.

Sales tax funds must be allocated to the Idaho Housing and Finance Association if, within 60 days of the close of the fiscal year, the Chairman of the Housing and Finance Association Board of Commissioners certifies to the State Tax Commission that a deficiency exists in the agency's Capital Reserve Fund. No such certification has been made in any year, nor is one anticipated for the current fiscal year. Beginning in 1996, this provision is limited to no more than \$89 million. Also, it only applies to bonds issued prior to 1996. In effect, this provision has been repealed for bonds issued on or after January 1996.

Basis of Projection:

The projections of FY 1998 and FY 1999 net General Fund accruals from the sales tax are based on econometric analysis and judgment. Historic monthly gross collections data are first adjusted for changes in the tax rate and any major collection anomalies. The adjusted data is then related to Idaho income and construction data using econometric analysis. Income forecasts from the *Idaho Economic Forecast* are then used to forecast gross sales tax collections. Historical refund levels and the current distribution formula are used to translate gross collections to net General Fund accruals. FY 1998 collections and accruals are also extrapolated from receipts-to-date, based on historical collection patterns. Judgmental considerations include the results of ongoing revenue monitoring and the expected impacts of new compliance and audit activities.

CIGARETTE TAX

Description: (Title 63, Chapter 25, *Idaho Code*)

Cigarette tax collections are based on a rate of one and four-tenths of a cent (1.4 cent) per cigarette or 28 cents per package of 20 cigarettes. Five cents per package of cigarettes are distributed to the Public School Income Fund and five cents are earmarked for County Juvenile Probation Services. Of the remaining 18 cents per package of cigarettes, 43.3% is distributed to the Permanent Building Fund; 6.7% is distributed to the Water Pollution Control Fund; 1% (to a maximum of the legislative appropriation) is distributed to the Central Cancer Registry Fund; 2.5% is distributed to the Cancer Control Fund; and the remainder is distributed to the General Fund.

1. From March 1, 1987 to July 1, 1987 the additional \$.00445 was all distributed to the General Fund.

2. The Central Cancer Registry Fund receives the lesser of its percentage or its dollar cap.

3. On July 1, 1994 the \$110,000 limit was replaced with a limit not to exceed the legislative appropriation.

Basis of Projection:

The projections of General Fund revenues from this source for FY 1998 and FY 1999 are based on a subjective assessment of recent collections history, Idaho population growth, and the trend toward decreased per capita cigarette consumption.

BEER TAX

Description: (Title 23, Chapter 10, *Idaho Code*)

A total tax of \$4.65 per 31-gallon barrel, or its equivalent, is levied on beer sold in Idaho. Of the total, 20% is distributed to the Alcoholism Treatment Fund, 33% to the Permanent Building Fund, and the remainder (47%) to the General Fund. Historical rates of the tax and its distribution are listed below.

BEER TAX RATE HISTORY AND DISTRIBUTION MECHANISM

Effective Date	Rate Per 31 Gal. Barrel	Distribution Mechanism
Mar-1935	\$1.55	50% to General Fund (GF); 50% to Public School Income Fund.
Jul-1939	\$1.55	100% to GF.
Jul-1947	\$3.10	100% to GF.
Jul-1961	\$4.65	\$3.10 to GF; \$1.55 to Permanent Building Fund (PBF).
Jul-1980	\$4.65	\$2.17 to GF; \$1.55 to PBF; \$.93 to Alcoholism Treatment Fund (ATF).
Jul-1986	\$4.65	47% to GF; 33% to PBF; 20% to ATF.

Basis of Projection:

The projections of General Fund revenue from this source for FY 1998 and FY 1999 are based on an assessment of recent collections, the slow decline in per capita beer consumption, and Idaho population growth.

WINE TAX

Description: (Title 23, Chapter 13, *Idaho Code*)

A tax of \$0.45 per gallon is levied on wine and beer containing more than 4% alcohol sold in Idaho. Of the total, 12% is distributed to goes to the Alcoholism Treatment Fund, 5% to the Idaho Grape Growers and Wine Producers Commission Fund, and the remainder (83%) to the General Fund. Historical rates of the tax and its distribution are listed in the table below.

WINE TAX RATE HISTORY AND DISTRIBUTION MECHANISM

Effective Date	Rate Per Gallon	State of Origin	Distribution Mechanism
Jul-1971	\$0.45	All	100% to General Fund (GF).
Jul-1980	\$0.45	All	\$0.40 to GF; \$0.05 to Alcoholism Treatment Fund (ATF).
Jul-1984	\$0.20	Idaho	\$0.15 to GF; \$0.05 to ATF.
	\$0.45	Non-Idaho	\$0.40 to GF; \$0.05 to ATF.
Jul-1986	\$0.20	Idaho	88% to GF; 12% to ATF.
	\$0.45	Non-Idaho	88% to GF; 12% to ATF.
Jul-1988	\$0.45	All	88% to GF; 12% to ATF.
Jul-1994	\$0.45	All	83% to GF; 12% to ATF; 5% to Idaho Grape Growers & Wine Producers Commission Fund.

Basis of Projection:

The projections of General Fund revenue from this source for FY 1998 and FY 1999 are based on a subjective assessment of recent collection history, the trend toward lower wine consumption per capita, the rising popularity of microbrewery beers, and Idaho population growth.

LIQUOR SURCHARGE

Description: (Title 23, Chapters 2 and 4, *Idaho Code*)

Revenue is derived from a 15% surcharge on the retail price of liquor sold by the State Liquor Dispensary. Idaho Law provides for a transfer of \$4.945 million annually to the General Fund. Other dedicated moneys from the liquor surcharge include: \$1.2 million to the Alcoholism Treatment Fund, \$0.3 million to the Community College Fund, \$1.2 million to the Public School Income Fund, and \$0.65 million to the Cooperative Welfare Fund. Of the balance of the distribution, 40% is distributed to counties and the remaining 60% is distributed to cities.

KILOWATT-HOUR TAX

Description: (Title 63, Chapter 27, *Idaho Code*)

Revenue is derived from a one-half mill (\$0.0005) per kilowatt-hour tax on electricity generated in the state of Idaho by water power. Power used by industrial consumers and for irrigation is exempt from this tax. All collections accrue to the General Fund. This tax has been levied since July 1, 1931.

Basis of Projection:

Kilowatt-hour tax receipts for FY 1998 and FY 1999 are based on an assessment of recent collection history in comparison to river flows, water availability, and changes in power generation capacity.

MINE LICENSE TAX

Description: (Title 47, Chapter 12, *Idaho Code*)

Revenue is derived from a 2% "profit" tax on Idaho mining operations. All collections accrue to the General Fund. This tax has been levied since 1935. It was initially set at 3%, then was lowered to 2% in 1972 where it has remained since.

Basis of Projection:

The projections of General Fund revenue from this source for FY 1998 and FY 1999 are based on a subjective assessment of recent collections history, the current and future levels of employment in mining, and relative minerals prices.

STATE TREASURER

Description: (Title 67, Chapter 12, *Idaho Code*)

State Treasurer's income is derived from interest on investments of idle state funds. Investments are made in time certificates of deposit, U.S. Treasury bills, and repurchase agreements. The yield from these investments is related to short-term interest rates, coupled with the amount of fund balances available for the Treasurer to invest. All net interest earnings, except those derived from the trust and agency funds, accrue to the General Fund.

For historical data see the "Miscellaneous Revenues" table on page 43.

Basis of Projection:

The projections of General Fund revenue from this source for FY 1998 and FY 1999 are based on an assessment of the State Treasurer's fund balances, forecasts of interest rates, and agency expectations. The FY 1998 projection includes \$3.2 million of net interest earnings by the Treasurer from the issuance of tax anticipation notes.

JUDICIAL BRANCH

Description: (Sections 1-402 and 19-4705, *Idaho Code*)

Revenues are derived from court fees and from 10% of all fines and forfeitures collected pursuant to the judgment of any court of the state, with the exception of Fish and Game law violations, of which 2.5% goes to the General Fund. Certain court fees were raised in FY 1997.

For historical data see the "Miscellaneous Revenues" table on page 43.

Basis of Projection:

The projections of General Fund revenue from this source for FY 1998 and FY 1999 are based on an assessment of recent collection history, fee changes, and Idaho population growth.

DEPARTMENT OF INSURANCE

Description: (Title 41, Chapters 4, 34, and 39, *Idaho Code*)

Idaho's insurance premium tax is applied at a rate of 2.75% of net direct insurance premiums written in the state, except for title insurance, which is taxed at the rate of 1.5%. Property and casualty insurers with 25% or more of their total assets and life insurers with 25% or more of their total life reserves invested in qualifying Idaho investments may qualify for a reduced tax rate of 1.4%.

As a result of legislation in 1995, the two largest hospital/medical service corporations (Blue Cross of Idaho and Medical Service Bureau) converted to mutual insurers and became subject to the Idaho premium tax rate of 2.75% rather than the \$.04 per subscriber head tax. Effective July 1, 1997, as a result of legislation changing Chapter 39, all health maintenance organizations became managed care organizations and under Idaho law beginning January 1, 1998, will pay the premium tax rate rather than the \$.04 per subscriber head tax.

Premium taxes are collected on a quarterly prepayment basis based upon a percentage of the previous year's taxes as reported on the company's filed premium tax return. Prepayment percentages are 60% in June, 20% in September, and 15% in December, with the balance due with the filing in March. The fire insurance premium tax collections are dedicated to the Firemen's Retirement Fund.

The Department of Insurance collects a variety of filing and license fees. These revenues are dedicated to the Insurance Administration Fund to fund operations of the Department of Insurance. At the beginning of each succeeding fiscal year, any balance in the Insurance Administration Fund exceeding the current year appropriation by 25% is transferred to the General Fund.

For historical data see the "Miscellaneous Revenues" table on page 43.

Basis of Projection:

The projections of General Fund revenue from this source for FY 1998 and FY 1999 are based on forecasts of insurance premium growth, trends in insurance rates and coverage, agency records of insurers qualifying for the lower rate, and company insolvencies that result in credits taken for guaranty association assessments. These variables and parameters are then run through a simulation model of the cash-flow process to capture the effects on prepayment, filing reconciliation collections, and refunds. FY 1998 collections will reflect the revenue impact of managed care organizations changing from payment of the \$.04 head tax to tax payment based on the premium tax rate.

DEPARTMENT OF LAW ENFORCEMENT (LIQUOR LAW ENFORCEMENT)

Description: (Title 23, Chapters 9, 10, and 13, *Idaho Code*)

Revenue is derived from the sale of alcoholic beverage licenses to retailers, wholesalers, and manufacturers at a standard fee.

For historical data see the "Miscellaneous Revenues" table on page 43.

Basis of Projection:

The projections of General Fund revenue from this source for FY 1998 and FY 1999 are based on a subjective assessment of recent collection history and Idaho population growth.

UNCLAIMED PROPERTY

Description: (Title 14, Chapter 5, *Idaho Code*)

Unclaimed property from bank accounts, safe deposit boxes, travelers' checks, life insurance policies, utility deposits, and the like accrue to the state after certain holding periods. Beginning in FY 1983, amounts in the Unclaimed Property Fund exceeding \$100,000 were transferred to the General Fund. Prior to that time, the excess was transferred to the Permanent Building Fund. Beginning in FY 1995, the Tax Commission transferred amounts in the Unclaimed Property Fund exceeding \$250,000 to the General Fund.

For historical data see the "Miscellaneous Revenues" table on page 43.

Basis of Projection:

Projections of unclaimed property are based on a subjective assessment of recent collection history.

OTHER DEPARTMENTS AND TRANSFERS

The primary revenue sources for this miscellaneous category are receipts from the Department of Finance, Department of Lands, Department of Administration, Secretary of State, and Department of Agriculture. Other agencies provide lesser amounts on a sporadic basis. Environmental violation penalties assessed by the Division of Environmental Quality are an irregular income source. The annual transfers to the General Fund from the Public Utilities Commission and from the Federal Power Act (through the State Treasurer) are also included. However, the unpredictable nature of other items included in this source is evidenced by the collection history.

For historical data see the "Miscellaneous Revenues" table on page 43.

Basis of Projection:

The projections of miscellaneous General Fund revenues for FY 1998 and FY 1999 are based on a subjective assessment of recent collection history and expected transfers.
